

Mirror balls for event

Exhibit, live show, commercials, decoration etc.

Mirror ball is not a normal ball!!

it brings your audience new experience and event scene stunning effects with its specialty.

Features

- 1) made of special mirror surface composite materials, highly durable, environment-friendly raw material
- 2) highly reflective mirror like surface makes it ideal background and decor prop
- 3) complex single-layer structure for both normal air and helium fill application, respectively for floor-stand/hanging and float in air use
- 4) Dual-layered structure for robust application but only in air filling use
- 5) fast setup/inflation, complete specification from 0.6m to 5m in diameter
- 6) for floor-stand, ceiling suspension, float-on-water or float-in-air (helium) applications
- 7) friendly to vinyl stickers; possible for logo printing in single color
- 8) customizable size

Benefits

- 1) very different scene setting tools, customer value of new experience
- 2) nice background or decoration for live show event
- 3) new branding options for the client's market awareness

Warranty

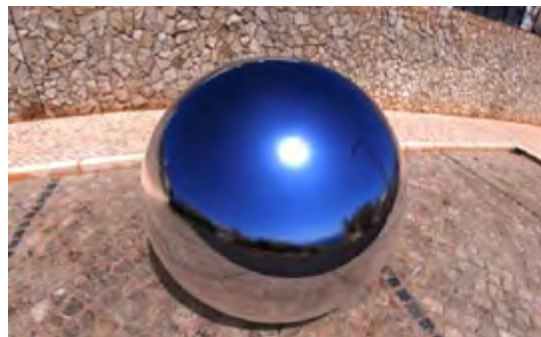

- 1) Endurable use as long as up to 3 years repeated use with suitable use, proper care and storage
- 2) Product warranties against all manufacturing defects
